Redmi Note 6 Pro is pre-loaded with MIUI, our customised Android-based OS which pushes out frequent updates and user friendly features suggested by over 200 million active users globally. Visit [www.miui.com](http://www.miui.com) for more information. Visit our official website: [www.mi.com](http://www.mi.com).

The diagram illustrates two memory configurations for the device. On the left, there are two Nano-SIM slots. On the right, there is one Nano-SIM slot and one Micro SD slot.

- Dual 4G SIM requires the support of local telecom operator services, and may not be available in all regions.
- Only certain regions and telecom operators support VoLTE.
- System updates may be applied when network optimization occurs. For details, please refer to the system version in use on the device.

RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE.  
DISPOSE OF USED BATTERIES ACCORDING TO INSTRUCTIONS.

For more important safety information, pls. refer to User Manual in below link:<http://www.mi.com/en/certification/>

Read all the safety information before using your device.

Using unauthorized cables, power adapters, or batteries can cause fire, explosion, or pose other risks.

Use only the batteries and power adapters which are compatible with this device. This device's operating temperature range is 0°C–40°C. Using this device in the environments outside of this temperature range may damage the device.

If your device is provided with a built-in battery, don't attempt to replace the battery yourself to avoid damaging the battery or the device.

Charge the device only with the included or authorized cable and power adapter. Using other adapters may cause fire, electric shock, and damage the device and the adapter.

After charging is complete, disconnect the adapter from both the device and the power outlet. Do not charge the device longer than 12 hours.

The battery must be recycled or disposed of separately from household waste. Do not throw the battery away with trash or fire, explosion. Dispose or recycle the device, its battery and accessories according to the local regulations.

Do not disassemble, hit, crush, or burn the battery. In case of deformation, stop using the battery immediately.

– Do not short circuit the battery to avoid overheating, burns, or other personal injuries.

– Do not place the battery in the high-temperature environments. Overheating may cause explosion.

– Do not disassemble, hit, or crush the battery to avoid battery leaks, overheating, or explosion.

– Do not burn the battery to avoid fire or explosion.

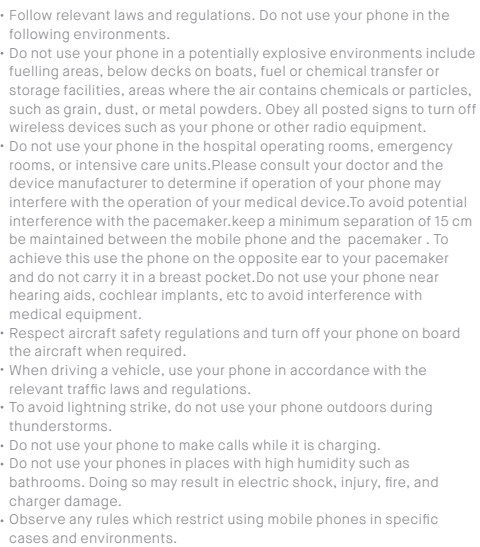

– In case of deformation, stop using the battery immediately.

Keep your device dry.

Do not try to repair the device yourself. If any part of the device does not work properly, contact MI customer support or bring your device to an authorized repair center.

Connect other devices according to their instruction manuals. Do not connect the device to any other device.

For AC/DC Adapter, the socket-outlet cable shall be installed near the equipment and shall be easily accessible.

Update your phone's operating system using the built-in software update feature, or visit our authorized service outlets. Updating software through other means may damage the device or result in data loss, security issues, and other risks.

Hereby, Xiaomi Communications Co., Ltd. declares that this GSM/GPRS/EDGE/UMTS/LTE Digital Mobile Phone with Bluetooth and WiFi **M1806E77G** is in compliance with the essential requirements and other relevant provisions of the RE Directive 2014/53/EU. The full text of the EU declaration of conformity should be consulted at [www.mi.com/en/certification](http://www.mi.com/en/certification)

AT	BE	BG	HR	CY	CZ	DK

PT	RO	SK	SI	ES	SE	UK

Manufacturer :  
The Rainbow City of China Resources, NO.68, Qinghe Middle  
Street, Haidian District, Beijing, China 100085

This mobile phone offers the following frequency bands in EU areas only and maximum radio-frequency power;

- GSM 900: 35 dBm
- GSM 1800: 32 dBm
- UMTS band 1/8: 25 dBm
- LTE band 1/3/7/8/20/38/40: 25.7 dBm
- Bluetooth: 20 dBm
- Wi-Fi 2.4 GHz band: 20 dBm
- Wi-Fi 5 GHz band: 20 dBm

This mobile phone complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This mobile phone has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can receive radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy. The exposure standard for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR.

The SAR limit set by the FCC is 1.6W/Kg. For body worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and be positioned a minimum of 1.0cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. If you do not use a body-worn accessory and are not holding the device at the ear, position the handset a minimum of **1.0cm** from your body when the device is switched on.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device has an electronic label for certification information. To access it, please select Settings> About Phone > **Verification** or select Setting, then type "Verification" into the search bar.

SAR 10g limit: 2.0 W/Kg, SAR Value: Head: 0.755 W/Kg,  
Body: 1.476 W/Kg (5mm distance).  
SAR 1g limit: 1.6 W/Kg, SAR Value: Head: 0.75 W/Kg,  
Body-worn: 0.78 W/Kg (10mm distance).  
Hotspot: 1.14 W/Kg (10mm distance).

Install the adapter near the device in an easily accessible position.

Model: **M1806E7TG**  
1806 indicate the date of putting the product on the market is 201806
